PROFESSIONAL SUMMARY

Computer Science graduate with hands-on experience in web development and AI integration. Proficient in Python, JavaScript, Flask, HTML/CSS, and Tailwind CSS. Proven ability to deliver real client-facing projects end-to-end.

TECHNICAL SKILLS

Languages: Python, JavaScript, Java, PHP, SQL **Frontend:** HTML, CSS
Frameworks: Flask, Tailwind CSS

WORK EXPERIENCE

Big Outsource — IT Support Intern June 2024 – July 2024

- Diagnosed and resolved hardware and software issues for agents, reducing system downtime.
- Troubleshoot and restored internet connectivity across multiple workstations in a BPO environment.

Frontline Business Solutions — Web Development Trainee June 2023 – July 2023

- Completed end-to-end web development training covering UI mockup design through responsive, production-ready HTML/CSS implementation.
- Utilized Tailwind CSS and SASS to build fully responsive clone webpages including Apple and Visual Studio Code sites.
- Ranked top 2 out of all trainees upon program completion.

PROJECTS

MockWise — AI-Powered Mock Interview Web App 2025 – Present

- Developed a full-stack Flask/Jinja2 app simulating job interviews with AI-generated responses, speech-to-text, and text-to-speech integration.
- Originated as undergraduate thesis; currently being refined for SaaS launch with freemium pricing and Stripe integration.

Client Website — Harminder Singh 2025 – Present

- Building professional client websites using HTML and Tailwind CSS with dynamic component loading, from requirements to deployment.

Solar-Powered Automated Trash Bin 2024

- Engineered an Arduino-based smart bin with automated lids, fullness detection, and load-based lid-disable logic; resolved a critical multi-lid synchronization bug to meet client specs.

Student Attendance Monitoring Device 2024

- Built an Arduino attendance tracker that saves student time-in/time-out and tardiness data directly to CSV on a connected PC; led hardware design.

Automated Sprinkler System 2024

- Created a scheduled-watering, pesticide-spraying sprinkler with soil humidity monitoring; fabricated hardware components and contributed to firmware sequential logic.

EDUCATION

Laguna College — B.S. Computer Science September 2021 – June 2025

Laguna College — Senior High School, STEM Strand June 2017 – May 2019

CERTIFICATIONS

Web Design and Development — Frontline Business Solutions (July 2023)
